1 INTRODUCTION

The amount of support you can get depends on the level of your household income.

Household income is the **combined income** of you and your parents or husband, wife, civil partner or partner.

2 YOUR PARENTS', HUSBAND'S, WIFE'S, CIVIL PARTNER'S or PARTNER'S INCOME

We will use your parents' income or your husband's, wife's, civil partner's or partner's gross income or taxable profit (if self-employed) for a certain financial year to assess your eligibility to support. The financial year chosen will depend on the academic year you are applying for.

For the academic year 2018-2019, we will assess the income for the financial year ending 5 April 2017.

Academic year:	Financial year assessed:
2018-2019	Financial year ending April 2017
2019-2020	Financial year ending April 2018

The types of income we take into account are:

- PAYE – including commission, bonuses, overtime
- Self-employed income (taxable profit for financial year ending between 6 April 2016 and 5 April 2017)
- Income from property
- Pension income
- Social security benefits (see section 5)
- Interest from bonds and trusts
- Interest from bank/building society and any investments
- Dividends

- Other income – including maintenance payments

Outgoing costs are a matter for each household and generally do not make up part of the student support income assessment. However, we will take into account any maintenance payments your household make to another household for a student in further or higher education.

3 INCOME – CHANGE OF CIRCUMSTANCES

If the income of your parents' or husband, wife, civil partner or partner has dropped since tax year ending April 2017, we may be able to assess your award again. If there is likely to be a drop in income to a lower income bracket, we may assess your award using an estimate of their income for the current financial year.

You will need to give us an estimate of your household income. To do this, you should fill in an estimate of income form, which you can get from the ['how to apply'](#) section of our website.

4 YOUR INCOME

We will use an estimate of your unearned income for the coming academic year as follows:

Course starts	Period of time your income estimate should cover
August to December 2018	1 August 2018 to 31 July 2019
January to March 2019	1 January 2019 to 31 December 2019
April to June 2019	1 April 2019 to 31 March 2020
July 2019	1 July 2019 to 30 June 2020

Please note - we do NOT take into account any earnings from employment or self-employment.

For full information on the types on income you should or should not tell us about, please read the table below.
